

# Research Innovation showcase

Keynote speaker: Richard Sauerman

You are invited to an innovative event showcasing some of Flinders University's best research and technology.

- Learn about innovations at Flinders as researchers pitch their capabilities and technologies
- Experience technologies currently in development
- Listen to keynote speaker Richard Sauerman aka 'The Brand Guy' talk about his take on innovation
- Network with investors, government, industry, researchers and students
- Build relationships to partner and develop new products and services in areas as diverse as Defence, Environment, Materials, Molecular Technology, Health, Education and Training

**When: 2-5pm, Thursday 30 September 2010**

**Where: Science Innovation Learning Centre (SILC) Building, Flinders University**

**Refreshments will be provided**

To register your attendance at the event and to find out more about accessing the inspirational minds and commercially relevant research available at Flinders University go to:
