

Inaugural Marine Biotechnology Seminar

Marine Biodiscovery: Positioning SA

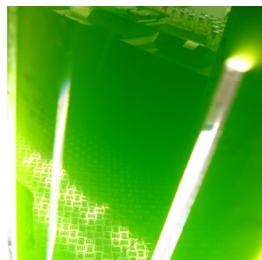

The challenge of realising the bioindustries potential of the oceans

Professor Joe Baker AO, OBE, FTSE

Flinders
UNIVERSITY

inspiring
achievement

The inaugural Flinders University Marine Biotechnology Seminar, co-sponsored by Bio Innovation SA, seeks to pioneer in South Australia the engagement of industry and researchers in Marine Biodiscovery, a biotechnology field with industry-transforming technologies and high-value products. Already, marine bioproducts are responsible for billions of dollars of industry transformation around the world.

Come and hear Professor Joe Baker, one of the founding members in marine biotechnology research in Australia and a former director of the Australian Institute of Marine Science (AIMS) in Queensland, share his experience and vision for the potential of this field for education and industry. Also speaking will be Mr Dennis Mutton, Chair of Bio Innovation SA.

Other luminaries such as Mr Barry Murphy (Immediate past Chair, Australian Rail & Track Corp), Mr Graham Walters (Chair, Westpac SA), Professor Rob Lewis (PSM, FTSE, immediate past Executive Director SARDI) and Professor David Day (Deputy Vice-Chancellor Research) Flinders University, will be present to share their views.

Tuesday, 29 March 2011

8.00am-9.30am (7.30am for 8.00am start) • Buffet breakfast included, commencing at 7.30am.

Flinders University Victoria Square

182 Victoria Square, cnr Flinders Street – www.flinders.edu.au/victoriasquare

\$25 per person, includes breakfast [please complete payment form]

RSVP by 18 March to: fcmb2@flinders.edu.au or contact Raymond on (08) 7221 8552

*We look forward to your presence at this important first step
for research, education and industry.*
